

Coprosma 'Pina Colada'

Fabulous Foliage!

Extremely large, extremely small, extremely bright, extremely dark, leaves that look like seer-sucker, or leaves clad in silver felt; these are some of our favorite plants for foliage effect. Plant something bold to change the look of everything around it. Either planted singly in a pot or incorporated into mixed plantings, plants with striking foliage will modify, accentuate and emphasize colors, shapes and textures in your design. Experiment!

Artemisia l. 'Valerie Finnis'

Tradescantia 'Blushing Bride'

Ligularia sten. 'The Rocket'

ANNUALS & TENDER PERENNIALS

Alternanthera
